Since 2013	+8,001	+177.8%

Number of Students Passing At Least 1 AP Exam

	Number Change	Percent Change
Since 2018	+814	+33.7%
Since 2016	+1,548	+91.9%
Since 2013	+1805	+126.4%

Notes

- Results for all years are based on student-level data provided by the College Board at the end of each school year that are matched to DOE records. Students who are not matched are not included. District schools are included in all years while charter schools are included in years 2006 through 2019; some charter school data are not yet available for 2018 and 2019. Passing is defined as scoring 3 or higher on a 5-point scale.
- Small ethnicity categories, such as Native American and Multi-Racial are not shown here. As a result, the sum of ethnicity counts will not match the total.
- Student-level AP data by cohort are available since 2007. The years reflect students' expected graduation year 4 years after they entered 9th grade. Point changes are based on unrounded numbers.
