The NYC traditional graduation rate cohort excludes students in self-contained classrooms and District 75 students. Graduates are defined as those earning either a Local or Regents diploma, a Skills & Achievement Commencement Credential (SACC), a Career Development and Occupational Studies Commencement Credential (CDOS), or New York State approved high school equivalency degree by August. The NYS calculation, used since 2005, includes Local and Regents Diplomas and all students with disabilities. It does not include SACCs, CDOS or high school equivalency degrees as graduates.

# More NYC Students Are Ready for College

The College Readiness Index (CRI) is the percentage of students who, by the August after their fourth year in high school, have met CUNY’s standards for college readiness in English and mathematics. Students can meet these standards by reaching certain scores on the Regents, SAT, ACT or CUNY Assessment Tests.

Changes to CUNY remediation requirements in 2017 continue to have an impact on the City’s college readiness rate.
