Report Pursuant to Reporting Requirements in Local Law 102 of 2015

Background

Local Law 102 enacted in 2015 requires New York City Public Schools to submit to the Council an annual report on physical education for the prior school year.

This report provides information about the provision of Physical Education instruction, including the average PE class size, average frequency and average total minutes per week of PE as defined in Local Law 102, Adapted PE and the granting of PE substitutions, as reported through the STARS database for the 2024-25 school year. The report also includes information regarding the number and ratio of licensed PE instructors, PE teacher participation in professional learning, and designated Physical Education instructional space.

Schools self-report their scheduling information in STARS. Data for this report is gathered from various sources, including the Division of Human Resources, Office of School Wellness Programs, Office of Space Management, and the Office of Policy and Evaluation.

Note: Due to differences in data held at the city versus the state level, this report includes data on **licensed** PE instructors, which are held at the city level, rather than certified instructors, which are held at the state level. There are teachers with New York State Education Department (NYSED) PE certification who are teaching under a different NYC license.

2024-25 Citywide Data

This summary report provides A) the language from Local Law 102 (Int. No 1298-A) (in italics) and B) citywide aggregate data points for each reporting requirement. Explanations are provided for why some data points differ slightly from the Local Law language.

- viii. *Information regarding the department’s supplemental physical education program, including but not limited to, “Move to Improve”.*

Move-to-Improve (MTI) is a K-5/6 (includes grade 6 in K-6, K-8, K-12 schools) physical activity program designed to create and support an active learning environment in the classroom. Move-to-Improve activities blend academics and physical activity into educational lessons to drive student engagement and increase movement throughout the school day.

Schools with a comprehensive PE program, led by a certified or designated PE teacher, can become a Move-to-Improve All-Star school by ensuring that at least 85% of their eligible teachers are trained. Move-to-Improve All Star schools that implement Move-to-Improve in their classrooms can use MTI physical activities to supplement the time and frequency of their PE program.

There were 761 (94.9% of 802) elementary schools that achieved Move-to-Improve All-Star status in 2024-25.
