2019-20 Continuation Grant Request (CURRENT GRANTEES)

PROGRAM OVERVIEW

NYC Public School Principals: The Office of Arts & Special Projects is pleased to offer current Arts for ELLs and SWD grantee schools priority funding consideration to help sustain their work beyond the current school year. The Arts for ELLs and SWD grant program helps schools build arts partnerships that expand arts opportunities for diverse groups of student participants, with a focus on English Language Learners (ELLs) and Students with Disabilities (SWD). Through this program, schools receive grant funding to work with experienced, local arts organizations to implement school-based arts residencies that enhance student achievement in and through the arts, while developing and promoting best practices in arts education.

In addition to promoting student arts achievement, this program aims to provide ELLs and SWD with other academic, social, and emotional supports that result from high arts involvement and increased contact with students’ non-disabled peers and native English speakers. Finally, projects should also be developed with the goal of fostering strong, lasting partnerships between schools and their arts partners beyond an initial period supported by grant funding.

ELIGIBILITY FOR CONTINUATION FUNDING

- Only principals and assistant principals of schools currently receiving Arts for ELLs/SWD grant funding may apply. Schools must be in good standing with the Office of Arts & Special Projects (prior grantee reports timely submitted, satisfactory grantee/funding history, etc.)

- Schools must propose to work with the same arts organization in 2019-20.

- Schools must request no more than 50% of their current grant award and provide a plan for how the school will cover the remainder of anticipated project costs in 2019-20.

- Schools must propose a comparable or an expanded project scope for 2019-20. In other words, schools may not reduce the level, frequency, and rigor of arts services currently provided through their arts partnership despite a reduction in grant funding.

- Current grantees who would like to propose work with a different organization, request different funding levels, and/or make significant changes to their project scope may consider submitting a new application instead. Note however such proposals would lose priority funding status and would only be considered should any funding remain after all other meritorious priority projects are funded (to view application guidelines for new applications, click here)

- Note eligible schools may submit for consideration either a continuation application or a new application; schools may not submit both.

FUNDING RESTRICTIONS

Schools may not use grants to supplant existing or planned school investments toward arts partnerships. In addition, grants may not be used for school facility or capital improvements. Funding will be provided to grantee schools via a Galaxy allocation and will be object-code restricted to pay only for direct student services provided by their arts partner. All other project expenses, such as additional DOE per session hours, or supplies, materials, and other resources not already provided by arts partners as part of the approved residency, must be covered by grantee schools.
DELIVERABLES

Grantee schools must provide a detailed project report at the end of the school year. In collaboration with their arts partners, grantees are also expected to develop Blueprint-aligned curriculum resources (e.g. lesson/unit plans, other instructional materials) that may be used at their schools during and beyond the grant-funded period. Arts partners are expected to deliver school-based residencies that are aligned with these curriculum plans. All project documentation and copies of curriculum materials must be provided to the Office of Arts and Special Projects upon request.

FREQUENTLY ASKED QUESTIONS

Our school received funding this year; can we request funding to work with a different arts partner organization next year?

Schools who’ve never received grants in the past and schools who are proposing to sustain their existing partnerships (with the same partner) into the next school year will receive priority consideration for funding. Current grantee schools who would like to propose significant project changes (e.g. working with different partners) have the option to submit a new proposal; however, such requests would only be considered should any funding remain after all other meritorious priority projects are considered (to view application guidelines for new applications, click here).

May we request funding covering a period beyond a school year?

Due to DOE budget-related time constraints, funding requested through this application should cover a period spanning between the upcoming school year (July - June). After a year of approved funding, grantee schools will have an opportunity to re-apply annually for up to two additional years of funding, for a maximum period of grant support of three years.

Who will receive the funding and how may it be used?

Grantee schools will receive funding as a direct allocation in Galaxy that will be object-code restricted to pay only for services provided by their arts partner. Grantees are responsible for processing a DOE purchase order with their approved arts partner for services aligned with their approved project proposal. In addition, a fixed per session allowance of approx. 24 teacher hours will also be provided per school to offset costs for such activities as planning, meetings, and curriculum review. Schools must cover all other associated project expenses (e.g. supplies, materials, other resources not provided by the arts education partners). Due to internal DOE spending deadlines, grantees must be prepared and are expected to process purchase orders with their approved arts partners shortly after receiving allocations.
FREQUENTLY ASKED QUESTIONS (CONT.)

Can my proposed arts education partner submit our schools’ application on my behalf?
No, school leaders must take the lead in the application process. Therefore, proposals must be
reviewed and submitted online by either school principals or assistant principals only. However,
to facilitate collaboration among stakeholders, principals may share the list of application
questions among the appropriate parties so that responses can be prepared before the principal
or assistant principal completes the online submission process.

Will I be able to return to a partially completed proposal through the online application?
Yes, the online application saves any entered information before clicking on the “next page”
button at the bottom of each page of the online application. However, we recommend
reviewing all the application questions in advance and then doing all of your proposal writing in
MS Word, utilizing the word count, and copy editing tools beforehand. This way, you would
have a saved copy of your work and have all of your responses already prepared before
submitting via the online application form.

May we apply to more than one DOE Arts Partnership Grant Program?
The Office of Arts and Special Projects currently offers two Arts Partnership Grant programs:
Arts for ELLs and SWD and Arts+Family Engagement. Each school may submit one proposal per
grant program (for which it is eligible) per year. If applying for Arts for ELLs/SWD funding,
eligible schools may submit for consideration either a continuation application or a new
application; schools may not submit both.
