If so, terminate (P)revious mandate and assign (C)urrent mandate to new agency/provider without going through the assignment cascade (primary, secondary/tertiary, RSA, P-4)</li> <li>- <b><u>CONTRACT AGENCIES</u></b> Terminate the (P)revious mandate and withdraw the transmittal (see additional guidance below) *</li> </ul> <p><b>Note:</b> If the current provider/ agency is unable to continue providing services, a new provider should be assigned using the assignment cascade.</p>

**Note:** Please view next page for important information.

\* For Contract Agencies: If it is assumed your agency can continue to satisfy the new mandate requirements, a new transmittal may be sent to your agency. If this happens, the new (C)urrent mandate row will appear on your grid. Record all subsequent assignment activity on this (C)urrent mandate row for the remainder of the term. To retroactively record assignment activity to the (P)revious mandate formerly transmitted to your agency, use the REASSIGN\*\* or TERMINATE\*\*\* actions.

\*\*The REASSIGN action will behave the same way for both (P)revious and (C)urrent mandates. The former provider's assignment row will be terminated and a new assignment row will be generated on the grid with the subsequent provider assigned and in Awaiting First Attend status.

\*\*\*The TERMINATE action will behave differently for (P)revious and (C)urrent mandates. When this action is taken on a (P)revious mandate, it will no longer generate a new awaiting row for a subsequent provider UNLESS the checkbox for creating a new line is checked. The best practice would be to use the REASSIGN action when you know there is a subsequent provider, and use the TERMINATE action when you know you are terminating the final provider in the succession of assignments on that row.
