

### Dental Services in New York City Schools

The Office of School Health can help connect school-based dental providers with schools in need of dental services.

- This includes third-party mobile dental providers currently working in NYC schools
- Some of these programs provide preventive care only such as **examinations, cleanings, and fluoride treatment**. Others go as far as to take **x-rays**, place **fillings**, and provide other **restorative treatments**
- Dental providers in NYC schools must treat all children who have submitted written consent
- Families will not be billed for any services provided by dental providers in school
- **Your support and help obtaining written consents from parents are important to making the school dental program a success**

#### Mobile Dental Programs

Below are some mobile dental programs that are looking to serve more schools in your area. Please contact these vendors to determine what will best serve your school’s unique needs:

- First Medicare, Healthy Smiles (all boroughs): Dr. Eli Lorber, EL@mobiledmd.com
- St. Barnabas Health Center (Bronx only): Dr. Yael Feldman, yaelsfeldman1@gmail.com
- Smile New York (all boroughs): Dr. Beth Posner, bposner@mobiledentists.com
- Ezra Medical Center (Brooklyn only): Dr. Meryl Hersh, DrHersh@ezramedical.org
