Report on Guidance Counselors

Pursuant to Local Law 56 of 2014

February 15, 2023
Report Pursuant to Reporting Requirements in Local Law 56 of 2014

Background

Chapter 3 to Title 21-A of the Administrative Code of the City of New York (Int. No. 403-A) enacted in 2014 as Local Law 56 requires annual reporting on guidance counselors no later than the fifteenth of February.

Data is gathered from various sources, including the Division of Human Capital, the Office of Youth and Safety Development, Office of the First Deputy Chancellor, Office of Community Schools, the Division of Specialized Instruction and Support, and the Research & Policy Support Group.

School-based Support Team (SBST) social workers are shared across schools; however, they have historically been counted as supporting the one school that has this role on its budget. Starting with the 2021-22 report, SBST social workers are redistributed to more accurately capture all the schools they support.

Int. No. 403-A specifies that the report shall include:

i. The number of full and part-time guidance counselors and social workers in each school. See Appendix A.

*Social Workers: 1,321 schools have a social worker who serves more than one location. There are 535 social workers who serve more than one location.*

*Note: Due to the availability of data, which allowed for an SBST adjustment to this category, the number of social workers serving more than one location is more accurate, which accounts for the larger numbers.*

Demographic information for students in each school, including, but not limited to race, ethnicity, English language learner status, special education status, and the percentage of students eligible for free and reduced price lunch. Demographic data is based on SY2021-22 with the exception of schools that opened in SY2022-23 (enrollment data for new schools is preliminary). Please note that the special education program data is now reflected as a percentage of the IEP recommended portion of school day in a general education setting (versus percentage of ICT, SETTS or Special Class as in previous years). The data is now reported as such to align with the State reporting requirements as well as the requirements set forth in Local Law 27.
