

LL2/2024 Report -- Opioid Overdose Prevention

A Local Law to amend the administrative code of the city of New York, in relation to requiring the department of education to stock opioid antagonists in all school buildings.

No later than September 30, 2024, and annually thereafter, the department shall submit to the mayor and the speaker of the council a report that shall include, for the prior school year:

	Number for 2024-25 School Year
1) The number of school buildings stocked with at least 1 opioid antagonist kit	1707
2) The number of instances that an opioid antagonist from such stocked kits was administered to an individual in a school building	2*

**Following thorough investigation, it was determined that neither of the naloxone administrations captured in this report were confirmed opioid overdoses. Time is of the essence when responding to a potential opioid overdose, and as such responders are trained to administer naloxone to individuals if they are suspected of experiencing an opioid overdose.*
