What is a team?
You can create or join a team to collaborate with a certain group of people. Have conversations, share files and use shared tools with the group—all in one place. That group could consist of a class of students and educators, a group of staff and educators collaborating on a topic, or even a group for a student club or other extracurriculars.
Class teams provide special capabilities tailored for teaching and learning.

- **Add channels and manage your team**
  You can change team settings, add members to the class team, and add channels.

- **Every team has channels**
  Click one to see the files and conversations about that topic, class unit, or week in the course. You can even have private channels for group projects.

- **Open Class Notebook**
  Class Notebook is a digital binder you can use in your class to take notes and collaborate.

- **Open Assignments and Grades**
  Assignments allow educators to create and distribute assignments. Students can complete and turn in their assignments without leaving the app. Educators can use the Grades tab to provide feedback on assignments and track student progress. Students can see their progress, too.

- **Add tabs**
  Explore and pin applications, tools, documents, and more to enrich your class. We’re constantly adding more education specific tabs. Check back often.

- **Share files**
  Let class members view a file or work on it together.

- **Format your message**
  Add a subject, format text, convert the message to an announcement, post across multiple teams or control who can reply and more.

- **Start a discussion with the class**
  Type and format your message or announcements here. Add a file, emoji, GIF, or sticker to liven it up!

- **Add more messaging options**
  Click here to add new messaging capabilities like polls, Praise, and more to enrich classroom discussion.
