6. Verify/enter the actual **Start Time** and **End Time** for the session. Modify if necessary.

7. **Service Type** will be pre-populated. If it is not correct, select the correct service type from the dropdown menu.

12. Verify/select the service(s) provided from the **Service Description** dropdown menu.

**Note:** Under **Service Description**, indicate the type of paraprofessional you are currently servicing the student as. For example, select **Mobility** if you are the paraprofessional for a student recommended an **Orientation and Mobility Paraprofessional** or **Special Transportation** for a student recommended a **Transportation Paraprofessional** on their most recent finalized IEP.

13. Select the student’s progress from the **Progress Indicator** dropdown menu.

**Note:** Entering session notes in the **Session Notes** text box is optional for paraprofessionals.

**Note:** The **Previous Session Notes** field will populate from the most recent preceding saved service record if the **Service Type**, **Session Type**, **Grouping**, **Provider** and **Student** all match.

14. Check the box to certify the service. Certifying a Service Record is equivalent to attaching an electronic version of your signature. All services must be certified, including absences and cancellations.

15. Click **Save** to save your entries and finalize the service record.

16. After the service capture has been certified and saved, the completed service will appear on the **Service Calendar** in purple. Double click or right click on the event to view the details.
