Introduction

This training guide provides instruction on recording a past compensatory service for a student in the Encounter Attendance Service Record.

Compensatory Service is recorded using the *Compensatory Services* checkbox located in the *Mandate Short Description* field. This feature is used to encounter services that are not associated with an IEP recommendation. It should only be selected for services that differ from the recommendations on the active *IEP*, including services provided pursuant to an impartial hearing order, resolution, or settlement, Special Education Recovery Services (including any “Compensatory Services”) and Alternate Placement Paraprofessional services.

For more information regarding how to record services for Alternate Placement Para and Recovery Services, go to the [Special Education Recovery Services for Encounter Attendance](#) or [Completing a Service Record for Paraprofessionals](#) guides on our [SEGIS InfoHub](#).

Note: Effective February 2022, several enhancements were made to the Encounter Attendance Service Record in SESIS. Refer to the What’s New in Encounter Attendance [video](#) and [guide](#) to learn more.

Completing a Compensatory Service Record

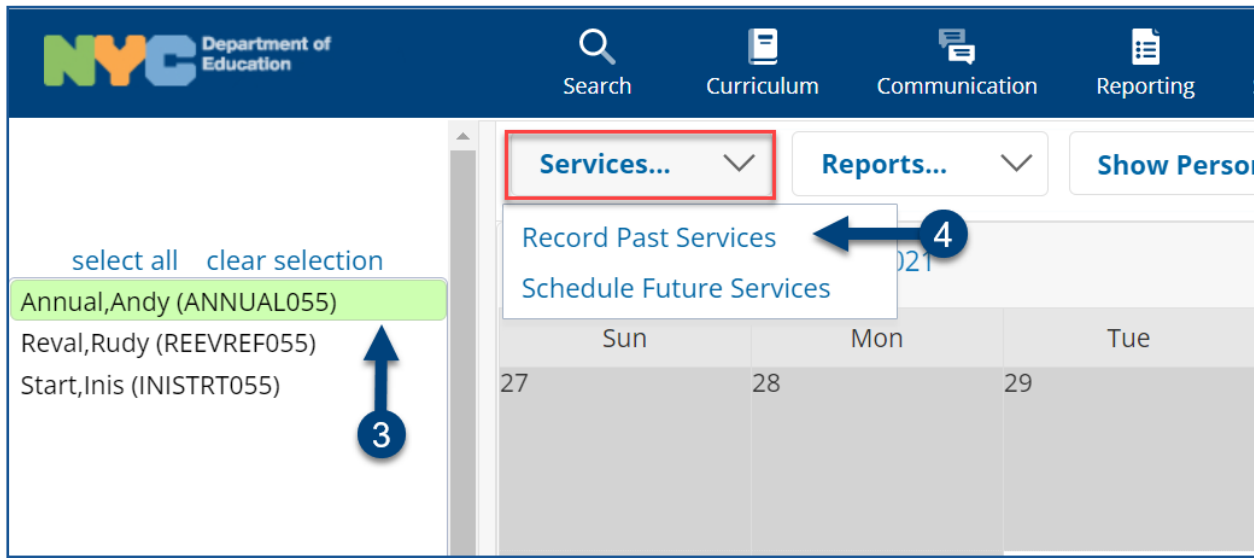

Select Student

1. **Log in** to SESIS.
2. From the *Top Navigation bar* on your homepage, click **Service Capture**, then select **Service Calendar**.

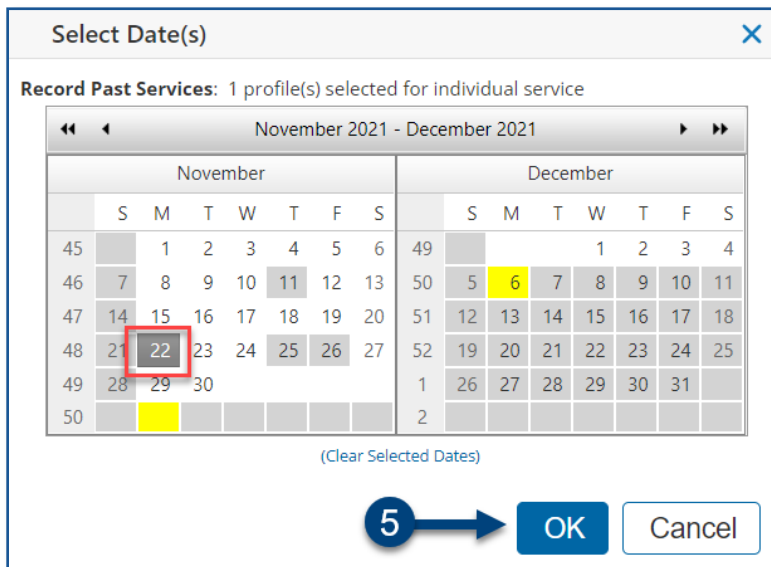

- On the left side of the screen, click to highlight the **student** from your caseload for whom you want to record a past service.
- Click the **Services** dropdown menu and select **Record Past Services**.

Note: You may also right click on a specific day and select **Record Past Services**.

- Select the **date(s)** of service to be recorded on the *Record Past Services* pop-up screen and click **OK**.

Note: The *Record Past Services* pop-up calendar displays on top of the *Service Calendar*. Since you are recording a past service, future calendar days are grayed out.

Note: If the *Select Mandate* pop-up window opens, Click **X** on the top right corner to close it since the compensatory service is not associated with an IEP recommendation.

The screenshot shows the bottom portion of the form. It features a certification statement: 'By clicking the certification below, it is my intent to electronically submit this record to the NYC DOE. My submission of this record in this fashion is the legal equivalent of my handwritten signature on the submitted record.' Below this is a checkbox with the text '*I certify that I was approved by the NYC DOE to provide the services, that I provided the services as documented in this record, and to the truth of the information it contains.' Callout 16 points to this checkbox. At the bottom left are two buttons: 'Save' and 'Cancel'. Callout 17 points to the 'Save' button.

18. After the service capture has been certified and saved, the completed service record will display on the *Service Calendar* in purple. **Double click**, or **right click** on the record to view the details.

Note: When recording a subsequent Compensatory Service record, fields will prepopulate based on the most recently recorded past service. Pre-populated fields can be modified until the record is certified and saved.
