

## Utilizing Social Media

Creating a website and utilizing social media are effective ways to promote your program to families. See below for easy ways to get started:

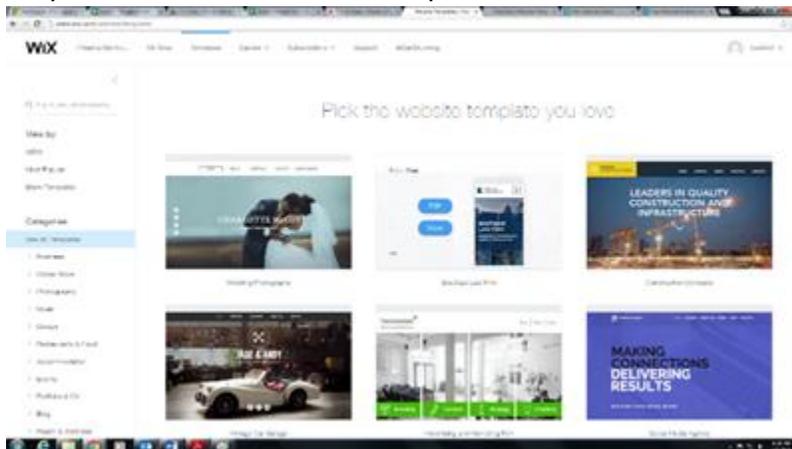

Wix.com

Step 1 – Create your own account for free

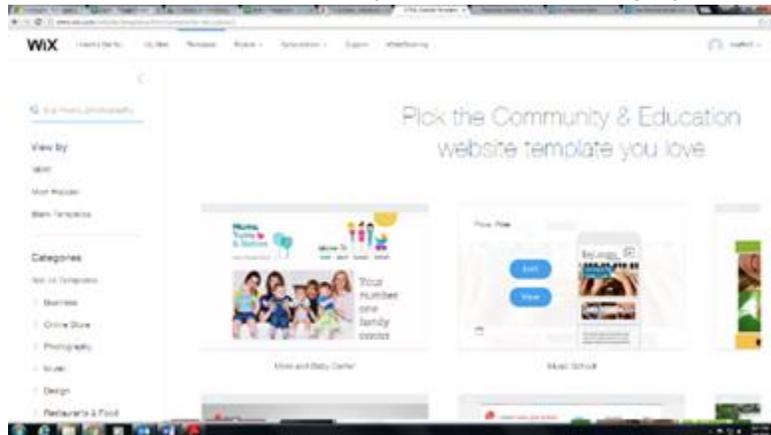

Step 2 – Click 'Create a Website'

Step 3 – Choose a Website Template

#### Step 4 – Choose ‘Community & Education’ Category

Step 5 - Customize your website!

Step 6 - Click ‘Save’ and ‘Publish’ in order to obtain your site’s URL.

Step 7 - Share website with families!

#### Webs.com

Step 1 - Enter your email, choose a password, and choose “Group/Org” in the Category field, and then click “Create a Free Website.”

Step 2 - Enter a title for your site.

## Set Up Your Account

Follow our easy steps to sign up and set up your account in no time.

### 1 The Basics

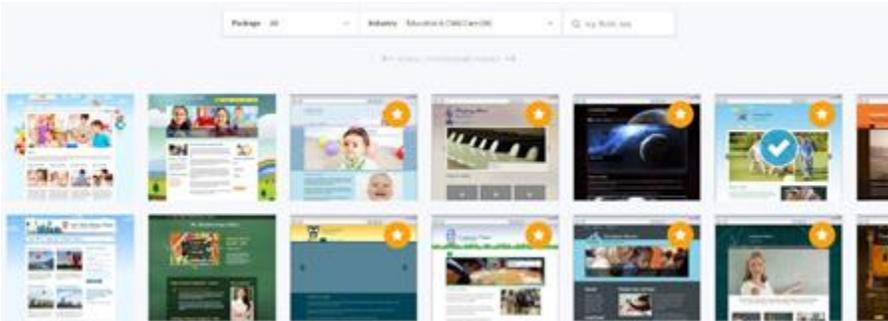

To create your free website account, enter your email address, password, website title and the category of your site, then choose a template.

Congratulations, you've successfully created your Webs Account.  
Let's start creating your first site!

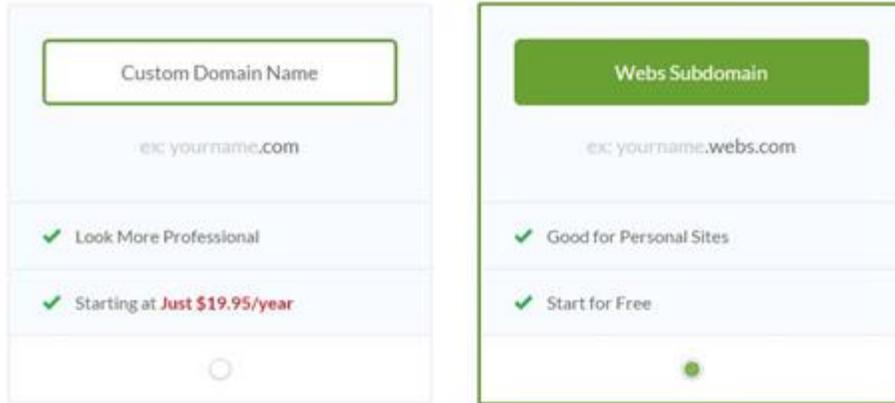

Site Title

Group/Org

Step 3 - Choose a theme for your site (note that “Education & Childcare” is an option in the “Industry” field, and that there are a number of early education-themed templates. Please also note that themes with a star in the upper-right hand corner require a premium account.)

Step 4 - Choose a domain name. You have two choices: buy a custom domain name (i.e. “www.sitename.com”) or start with a Webs.com subdomain name (i.e. “www.sitename.webs.com”).

Choose a domain name for your website below.

www.  .webs.com

SELECT PACKAGE >

Choo

Step 5 - Select your package. You are able to gain extra features by purchasing an “enhanced” or “pro” package, but it is not necessary.

Step 6 - watch the 3-minute tutorial on how to build your site, and use the tools available.

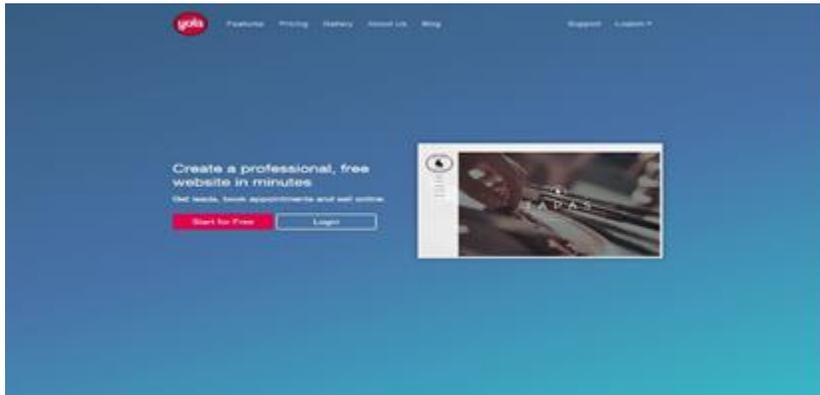

Step 7 - click “Done” in the upper-right hand corner. Your website is now complete, although

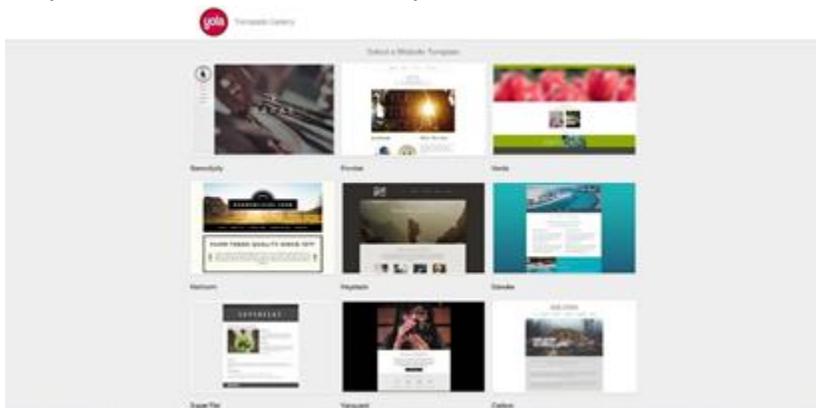

please note that you can update and change your website at any time.

## Yola.com

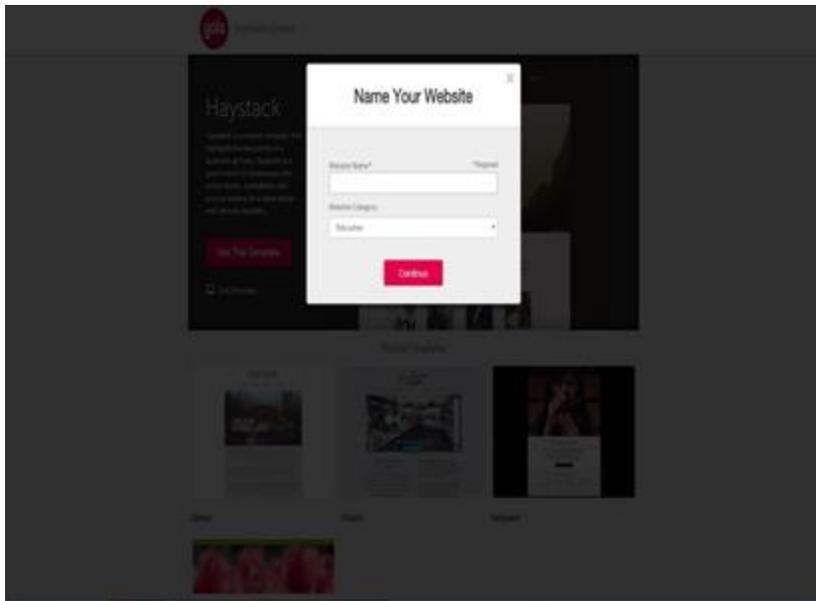

Step 1 - Click “Start for Free,” and then create an account.

Step 2 - Choose a website template.

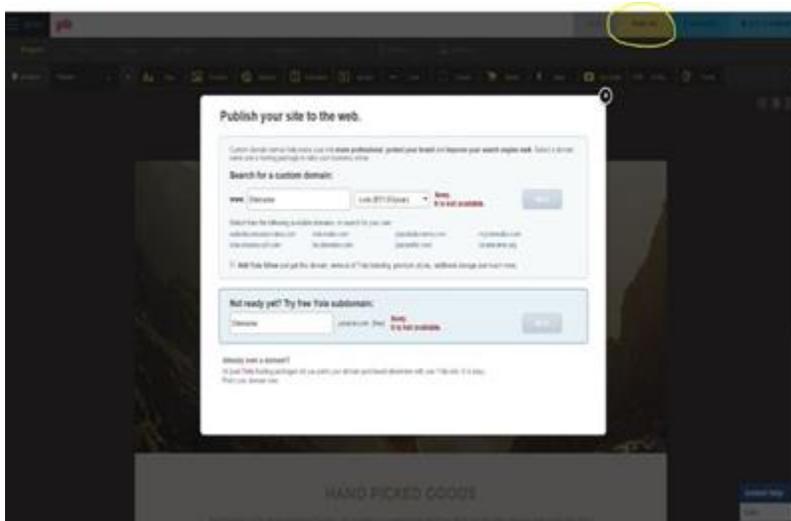

Step 3 - Name your website and select “Education” in the “Website Category” field.

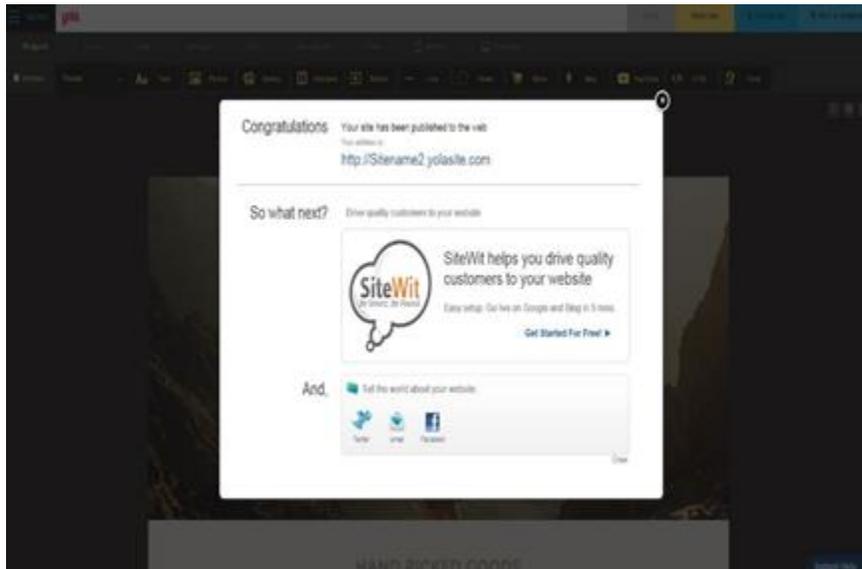

Step 4 - Fill in your contact information, or click “No thanks, I’ll do this later.”

Step 5 - Customize your site! Please note the “Instant Help” button for live chat help. You can also click the “Menu” button in the upper left hand corner, and then click on “Help.”

Step 6 - Once you are done, click “Publish.” You have two options: either buy a domain name (i.e. “www.site.com”) or use a Yola subdomain for free (i.e. http://site.yolasite.com”).

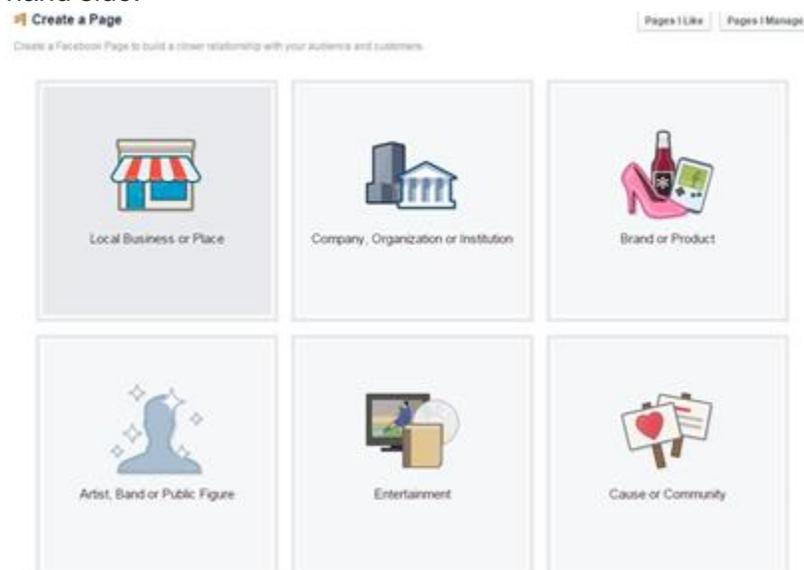

Step 7 - Congratulations! You've created your website. Please note that you're always able to continue updating and changing your website, and that you can always purchase a domain name if you start with a free site.

## How To on Facebook Page:

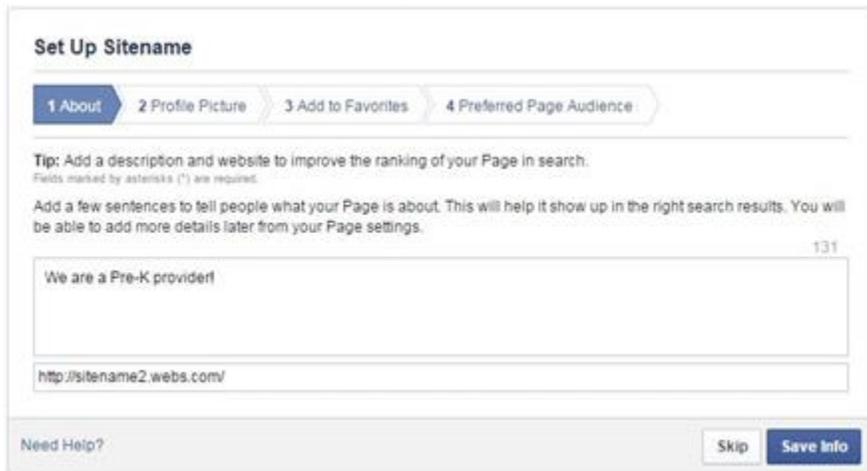

Step 1 - Log into facebook, and then click on "Create Page" under the Pages heading on the left hand side.

Step 2 - Choose "Community, Organization, or Institution," and then "Education," and fill in your site's name.

Step 3 - Fill in information about your site(s), and note the space for entering your separate

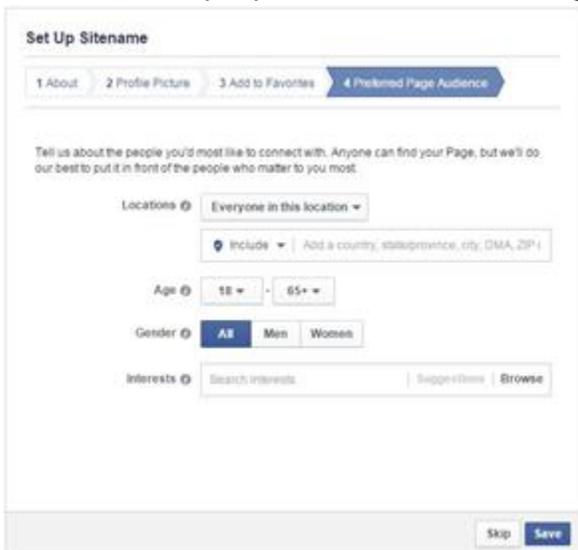

website. Also note the (one-time) opportunity to choose your facebook link/URL (i.e. “www.facebook.com/sitename”)

The screenshot shows the 'Set Up Sitename' interface for a Facebook page. At the top, there are four steps: 1 About (selected), 2 Profile Picture, 3 Add to Favorites, and 4 Preferred Page Audience. Below the steps, a tip reads: 'Tip: Add a description and website to improve the ranking of your Page in search. Fields marked by asterisks (\*) are required.' The main instruction says: 'Add a few sentences to tell people what your Page is about. This will help it show up in the right search results. You will be able to add more details later from your Page settings.' A text area contains the text 'We are a Pre-K provider!'. Below it, a website URL field contains 'http://sitename2.webs.com/'. At the bottom left is a 'Need Help?' link, and at the bottom right are 'Skip' and 'Save Info' buttons.

Step 4 - Choose a Profile Picture for your site’s facebook page.

Step 5 - Choose your desired audience. Anyone can find your page, but facebook will try to put it in front of the people who match the demographics you select here.

The screenshot shows the 'Set Up Sitename' interface for a Facebook page, specifically the 'Preferred Page Audience' step. The progress bar at the top shows steps 1 About, 2 Profile Picture, 3 Add to Favorites, and 4 Preferred Page Audience (selected). The main instruction reads: 'Tell us about the people you'd most like to connect with. Anyone can find your Page, but we'll do our best to put it in front of the people who matter to you most.' The 'Locations' section has a dropdown menu set to 'Everyone in this location' and an 'Include' button with a subtext 'Add a country, state/province, city, DMA, ZIP'. The 'Age' section has a range from '18+' to '65+'. The 'Gender' section has three buttons: 'All' (selected), 'Men', and 'Women'. The 'Interests' section has a search bar and a 'Browse' button. At the bottom right are 'Skip' and 'Save' buttons.

Step 6 - Update your contact information on the left hand side. You can also post a welcome for parents looking at your page, and you should continue to update the page with new information (updates about your program, pictures (with parent’s consent) of your classrooms, etc.)

Step 7 - Please note that you can pay for Facebook to “Boost” your site by putting your page on certain people’s newsfeeds. You can choose the audience by gender, age, and zipcode.

## How to on Remind App:

Step 1: Click “Get Started” and sign up for an account.

Step 2: Select “I’m a teacher.”

Step 3: Search for your school from the dropdown. If you don’t see your school listed, please select “Add it now,” and then click “Save.”

**Add your school**  
Connect with colleagues and help students and parents find your classes.

School

Search for a school

*Suggested schools for you*

**Is 125 Thomas J Mccann Woodside**  
Queens, NY  
6th Grade Teachers, K. Leibovitz, Mr. Newby & 67 more

**Ps 69 Daniel D Tompkins**  
Staten Island, NY  
Mrs. Ritzer, Mrs. Vuoso, Bouchra Rabie & 57 more

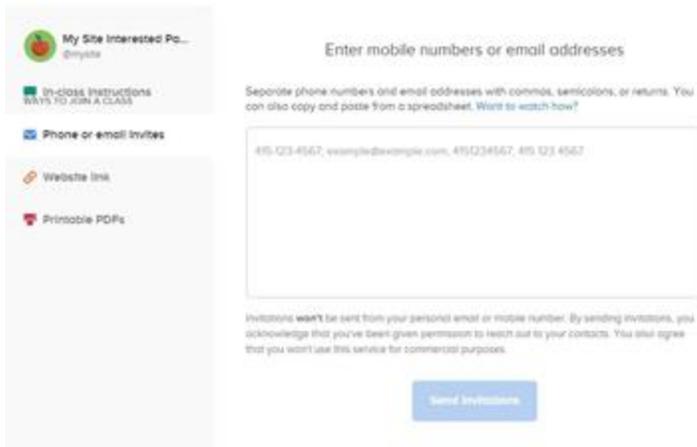

**New Dorp High School**  
Staten Island, NY

Can't find your school? [Add it now](#)

[I don't work at a school](#)

Step 4: Name your “Class.” (Note: This will be the name of the list, so if you intend to use Remind to stay in touch with parents who have expressed interest in your program, you might want to name it something like “My Site Interested Parents.”) You can create new classes at any time.

Step 5: Click “Phone or Email Invites,” and then put in the phone numbers or email addresses of interested parents. Then click “Send Invitations.” (Alternatively, ask parents who sign up to text the message displayed to 81010 – this will let them message you back without having your personal contact information.) Parents will receive a message asking them to opt in for messages from your school.

Step 6: You can use the app to message parents who opt-in about open house dates, registration reminders, and site information (Site ID, etc.), and parents can message you back through the app with questions. Once the year starts, you can keep parents informed of closures, emergencies, field trips etc. (Please note the “Translate” button, which can translate your message for parents who don’t speak English fluently (you can have a different “class” for parents who speak Mandarin, for example.))
