

Suggested Pre-K for All Staggered Schedule 2019-2020

Division of Early Childhood Education (DECE)

Smooth transitions into Pre-K for All programs lay the foundation for a successful year. As you develop plans to welcome children and families for the 2019-20 school year, the DECE strongly encourages you to use a staggered schedule to help children and families adjust.

The DECE also recommends that programs help children and families get to know classroom routines and build strong relationships with staff by planning experiences to support increasing familiarity with the classroom, teachers, and peers.

The schedule below is a sample. Pre-K for All programs should make changes as necessary to meet the needs of their students, families, and staff. Please note, the recommended staggered schedule for Pre-K for All is different from the 3-K for All schedule.
